and Trafficking

Human trafficking is a global threat which necessitates a global response. Traffickers are denying nearly 25 million people their fundamental right to freedom, forcing them to live enslaved and toil for their exploiter's profit. This report arms governments with the data they need to increase the prosecution of traffickers, provide victim-centered and trauma-informed protection for victims of trafficking, and prevent this crime altogether. [Click the image above](#) to access this report.
